

Seminar im Rahmen des GRK 2078

Referent: **Dipl.-Ing. Tobias Potyra**
Zoltek Corporation (a subsidiary of Toray Group), Neu-Isenburg

Datum: Mo., 11.12.2017
Uhrzeit: 14:30 Uhr

Ort: Geb. 10.23, 3. OG (R 308.1 – KM-Seminarraum)

Titel: **Carbon fiber – ready for high volume automotive applications**

Abstract

The potential for weight savings by the use of carbon fibers is big and used to be expensive. Large tow carbon fibers have the right performance and cost level for the use in the automotive, but the processing has been an issue. This presentation will provide an overview of the recent developments on the use of large tow in high volume manufacturing technologies.

Alle Interessenten sind herzlich eingeladen.
Prof. Dr.-Ing. Thomas Böhlke
