

Seminar im Rahmen des GRK 2078

Referent: **Prof. Dr. Caterina Ida Zeppieri**
Institut für Analysis und Numerik, Universität Münster

Datum: Mo., 25.06.2018
Uhrzeit: 14:00 Uhr

Ort: Geb. 10.23, 3. OG (R 308.1 – KM-Seminarraum)

Titel: **Stochastic homogenization of free-discontinuity problems**

Abstract

In this talk I will present some recent results concerning the stochastic homogenization of a class of free-discontinuity functionals depending on vector-valued functions u which can be discontinuous across hypersurfaces depending on u . We will show that, under the usual assumptions of stationarity and ergodicity, the homogenization procedure gives rise to a (homogeneous) deterministic free-discontinuity functional belonging to the same class.

Results obtained in collaboration with F. Cagnetti (University of Sussex), Gianni Dal Maso (SISSA, Trieste), and Lucia Scardia (University of Bath).

Alle Interessenten sind herzlich eingeladen.
Prof. Dr.-Ing. Thomas Böhlke
(Sprecher des GRK 2078)
